Specification

The examiner has not checked the specification to the extent necessary to determine the presence of **all** possible minor errors (grammatical, typographical and idiomatic). Cooperation of the applicant(s) is requested in correcting any errors of which applicant(s) may become aware of in the specification, in the claims and in any future amendment(s) that applicant(s) may file.

Applicant(s) is also requested to complete the status of any copending applications referred to in the specification by their Attorney Docket Number or Application Serial Number, **if any**.

The status of the parent application(s) and/or any other application(s) cross-referenced to this application, **if any**, should be updated in a timely manner.

Election/Restriction

Claims 46, 49, 52, 55, 58, 61, 64 and 67 remain withdrawn from further consideration as being directed to a non-elected invention.

Claim Rejections - 35 USC § 112

The previous rejections of the claims under 35 USC 112, first and second paragraphs, are hereby withdrawn. However, the following new rejection is applicable:

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 31-45, 47, 48, 50, 51, 53, 54, 56, 57, 59, 60, 62, 63, 65, 66, 68, 69 and 70 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to

Art Unit: 1755

particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The amended claims now recite "more than 50 vol.%, but greater than zero" of the mixed CA and C₁₂A₇ together. At best, this language is redundant because 50 vol.% must be more than zero. However, this language can also be considered indefinite because it casts doubt on the scope of the actual amount of the component, which the examiner considers to be more than 50 vol.%.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
